

April 16, 2018

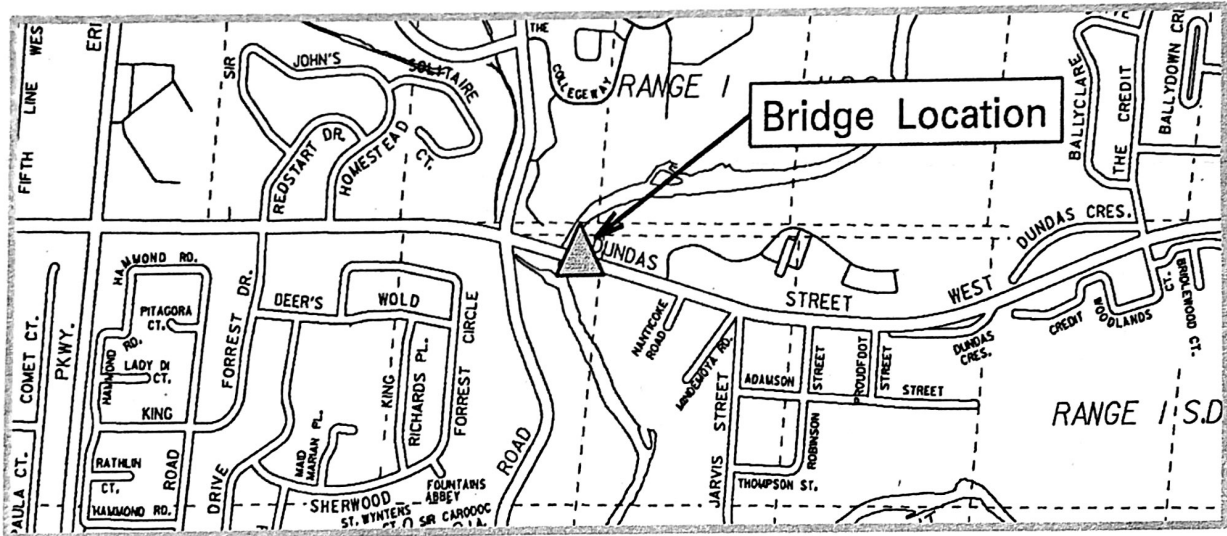

Rehabilitation of Dundas Street West Bridge over the Credit River

Construction Work: On or after **April 23, 2018 to December 31, 2018**
 Project Number: **PN 17-150**

The City of Mississauga will be rehabilitating the Dundas Street West Bridge over the Credit River.

The purpose of this work is to widen the bridge to incorporate a multi-use trail on the north side, waterproof the bridge deck and resurface the road, rehabilitate various bridge components and repair retaining walls.

The project will have road and sidewalk restrictions within the construction work area; however one traffic lane in each direction will remain open along Dundas Street West.

Future updates will be provided should there be changes to the project.
